THE BELLE BATHROOMS PROCESS

What makes Belle Bathrooms different from the rest you ask? Simple, it's all in our 3 step process..

1

Creating the Master Plan

During the initial consultation, we discuss your ideas, needs and expectations. From this we can work together to create "the master plan". Planning is a critical and crucial part of any successful project.

Once this is done, the budget will automatically fall into place. This step ensures a transparent quote for your approval.

2

The Choice is Yours

We can give you a shopping list and you can have fun shopping for tiles, tap wear, vanities, toilets, bath etc. Alternatively, we can do it all for you – we offer a range of high-quality packages from reputable Australian suppliers which you can customise to suit your style. We have long-standing partnerships with our trusted suppliers such as Beaumont Tiles and Reece to name a few.

3

Let the Magic Begin

To keep you in the picture, our team will present you with the project schedule. This outlines what's happening, when and by whom. Our carefully selected team of professionals will strip, prepare and install your new Belle Bathroom leaving it ready for you to enjoy.

"OUR AIM IS TO EXCEED YOUR EXPECTATIONS"

OUR PROMISE TO YOU

What you can expect from our team at Belle Bathrooms? We promise a winning service, combining excellent craftsmanship and experience to guarantee a seamless bathroom renovation.
